

AYISHA SHAIK

Full-Stack Developer • CSE Undergraduate • AI/ML

ayishashaik1979@gmail.com | github.com/ayishanu17-crypto | linkedin.com/in/ayisha-shaik-60018a354

PROFILE

Engineering-oriented CSE undergraduate building production web apps and ML

models under hackathon deadlines. Full-stack on React and TypeScript; Python and TensorFlow when the problem calls for it.

EXPERIENCE

Full-Stack Developer - KVANTUM ROOM (hackathon build) | Feb 2026

*ngineered real-time Firebase sync supporting 10+ concurrent users <100ms
hipped 5+ modules: live chat, AI doubt solver, shared whiteboard*

ML Engineer - CROP CARE | Jan 2026

*trained a CNN on ~3,000 labeled leaf images across 5 disease classes
eployed a web app that diagnoses a leaf photo in seconds*

Developer & Architect - DEBUGIQUE | Feb 2026

*ulti-language static analysis with custom AST engines (JS/Py/C++/Java)
ybrid persistence: MongoDB Atlas + local JSON fallback*

SKILLS

Languages: Python, Java, C, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks & Platforms: React, Tailwind CSS, Vite, Firebase, MongoDB, Node.js

Tools: Git, GitHub, VS Code, Eclipse, Google Cloud Platform

EDUCATION

B.Tech in Computer Science and Engineering

PBR Visvodaya Institute of Technology and Science - Kavali, AP

July 2024 - Present | Coursework: Data Structures, AI, DBMS
